

# LED SITE / AREA LIGHT

(General Outdoor)

The Energywise Slim Area Lights deliver class-leading efficiency in a lightweight design that can be applied to new and retrofit outdoor projects replacing metal halide fixtures ranging upwards of 1000W. Offered in lumen packages ranging from 8,000lm to over 44,000lm, the SAR Series can achieve more than 150 lumens per watt while providing significant long-term energy and maintenance cost savings. Daylight and motion sensors are additional options that may be added where necessary.
