

LED Flat Panel Court Fixture

The Energywise Flat Panel Court Fixture is designed for indoor court environments, offering high-output performance and energy efficiency with precision lighting control. Designed to shine most of its light directly downward with louvered/adjustable optics, it effectively illuminates court surfaces while minimizing wasted light, enhancing visibility for play without glare or spill. With Select-n-Switch technology for 4-CCT and 3-power settings, this fixture provides maximum flexibility and performance for sports courts, gymnasiums, and other high-ceiling indoor environments. Available with suspension kit or flat ceiling mount options.
